Cherokee: An Amazing Place For The Tourists

The writer describes that once he and his friend John visited Cherokee, to enjoy their holidays. There, they went to Qualla Boundary. It was a beautiful town. This place was representing the old traditions of its culture to the tourists.

They also met with George at the souvenir shops. He was the only fluent English speaker, whom they met there. They did lunch with him. He told them about his hard life. He also told them that Cherokee did not depend only on trade.

Another successful way of the earning is "Bingo Weekened," where local games are performed to the tourists. They also visited museum, which was full of Cherokee's culture. On his return, he missed the place.

Ordinary people think that law of country and individual liberty are antagonistic to each other. None can deny this fact. Every law puts some restrictions on individuals. If number of laws are more in a country, then restrictions would be more. More restrictions limit the individual liberty. In contrast, less rules enhance the individual liberty.
