

Economic Crisis

Pakistan is facing worst economic crises. The reasons of economic crises are as following.

Population is biggest threat for Pakistan's economy. In Pakistan population is increasing day by day. We don't have enough resources for education, health and employment. It is also the reason of increasing poverty in Pakistan.

Losses due to state own entities; PIA and railway are burden on Pakistan economy. PIA deficit is recorded \$305 million per year.

Political instability is also biggest problem in Pakistan. In April 2022; PDM government came to power and PTI took initiative for protesting against govt. Foreign investors are

are afraid to invest money in Pakistan. Many people wanted to live in other countries instead of Pakistan.

Decline in dollar reserves in the country cause depreciation of PKR Dollar rate increases and PKR decreases. In 2022: \$1:285 PKR
So automatically economy of Pakistan declined.
