

Poverty leads to crime

The economic and political instability lead to create crimes in a society.

It creates many disorders in a society and it causes many crimes.

First, the increasing inflation induces the cost of living in a society. As, inflation rises it also increases mental pressure on individuals and thus

one commit crimes. According to ~~Police~~

Police, 7 percent street crimes recorded increasingly in 2023. Second, during

in the political instability many laws are considered to be violated. Now a

days, in Pakistan, at a time of instability different types of crimes are recorded.

In short, the economic and political instability accelerate the crimes

ratio.
