

## 1- ISSUE of Climate Change

Climate change is not the issue of future, it's a problem of today. It is the most pressing global issue we are facing. It is the need of hour that proper action should be taken to reduce harmful emission of gases, deforestation and such activities of humans which are affecting the climate. It is the responsibility of every individual to take care of its environment. By working together globally to resolve this issue, we can protect our planet and ensure a sustainable future for future generation.

## 2- Political instability in Pakistan

Political instability is one of the major issue of Pakistan since 1947. It is the main barrier in the progress of Pakistan. Political instability result into economic uncertainty. Due to it, a large number of foreign investors are leaving the country day by day. Industries are closing on local level. Our imports are greater than exports. All these reasons ~~inflation~~ results in to high inflation rate in the country. To address this problem, strengthening democratic institution and reducing military

influence in politics must be reduce.

3- Negative effect of social media on youth  
There are several negative effects of social media usage on youth, chief among which is wasting of time. The endless scrolling, clicking and checking of notifications are easily consuming hours of our daily life without even realizing it. Once one start scrolling pictures, video and posts on different social media platforms, it ends into wasting hours before knowing it that our precious time has been lost. Social media is a useful tool to stay connect with people all over the world, but it essential for us to be mindful of how we use it and avoid falling into the trap of wasting time.

4- Effect of Ukraine - Russia conflict globally  
From diplomatic tension to economic sanctions, the conflict between Ukraine and Russia has far-reaching effects on the global stage. This ongoing conflict not only had a disastrous impact on civilian life of both countries, killing of thousands civilians, destruction of infrastructures but also

had major effect on global markets and food supply. The Ukraine and Russia war results into increase of oil prices upto 20% in global market and also consequence in to raise of food prices as Ukraine and Russia supplies quarter of global wheat. Hence, this conflict is a threat to world peace.
