Assignment: write a paragraph by giving reference

Topic: Nuclear weapons are challenge to world peace during the 21st century.

Topic and explanation sentences are about devastating effects of nuclear weapons while the rest of the paragraph is about nonproliferation etc

Sentence 1. (Topic sentence)

Nuclear weapons are the most dangerous weapons on earth. One can destroy a whole city, potentially killing millions and jeopardizing the natural environment and life of future generations through ^{their} long-term catastrophic effects. The Nuclear Non-proliferation Treaty (NPT) has kept the nuclear nightmare at risk for four decades. According to the author, the five NPT-licit nuclear power states (US, UK, France, China and the Russia) have disregarded NPT obligations to disarm while three nuclear armed states lie out the NPT: India, Pakistan, and Israel; (If you want the peace of the Dead, prepare for the nuclear war, Ramesh Kumar, Dec, 2011). There has been a substantial progress in reducing the number of war heads. However, the threat is still acute with a combined stockpile of more than 20,000 nuclear weapons; of these, 5000 warheads are launched ready and 2,000 are in state of high operational alert. Hence, we will either achieve nuclear abolition or have to live with nuclear proliferation and die with the use of nuclear weapons.

Argument: 2 Sentence 5.

Example / Reference Sentence - 6

Conclusion

Reference of sentence 5?
