Only the word 'books' has been borrowed from the topic. However, the t.s. should contain the keywords from the topic so that it responds directly to it. Haternert: Books have historically most influential things through out influx of modern technology; book are clearly losing utility in modern 2 Historical importance ap 3 Why books are eraclicating from
the society a Greater attraction of book modern technological devices as componed to books Cheap soft material as componed expensive printed books Continuously upelating data on internet compared to static data on books Social media Fast culture d. Creater advertisement inclustry putting technology at advantaged position Bigger market availability -

Not impressive beginning Evidence? considered as the habit ap successful people. Books have s most influential things throughout the history, but informately with the influx of moelern technology, buroks are bosing ground the society. This object as great historical importance is rapidly losing the importance for various reasons. The prominent among them are the greater attraction grabbing quality of technological devices, provision soft material at cheeper rates and regularly updating material on Internet. Extremely powerful and rich high tech companies have greater Potiental for advertisement and provision at data at cheaper rates as compared Dig funds required for jublishing books. The rapidly decreasing book
