Lack of skills.....Poverty

The lack of multiple skills leads to poverty in Pakistan. Moreover, Pakistan is the labour-intensive country. In fact, in this time, many companies are demanding for the skillful labour. Unfortunately, the Pakistan's labour is not skillful which, keeps them poor, with the passage of time. According to Pakistan Institute of Labour Education and Research, that 80 percent of unskilled labour are not receiving the minimum wage of twenty five thousand. Consequently, they get caught in a vicious circle of poverty (Salman Siddique, 80% workers denied minimum wage, April 22, 2023). In short, the unskilled labour leads to poverty in Pakistan.
