Topic: Mankind faces the Challenge of using Artificial Intelligence sesponsibity

Outline

1: Introduction

Thesis Statement: Artificial Intelligent (AI) is Manmade technology, which is now becomes Challenge for Mankind. Artificial Intelligence is Controlling the activities of the world, which is threatened for human life. To tackle the challenge of AI Mankind need to awarney of Complete destruction of Artificial Intelligence.

2: Challenges of Artificial Intelligence for Mankind

3: How Mankind faces the Challenge of using Artificial Intelligence

    a: Cause of neglect of human being Capabilities

    b: AI is threat for Privacy of mankind

    c: AI is Challenge for developing Countries

    d: AI is influencing over mankind decisions

    e: Education is getting inferior due to use of AI in universities.

f: AI is becoming a cause of deduction of economy

Impacts of growing responsible use of AI

a: AI ability to Create fakes and spread misinformation.

b: Enhance the Competation of arm race

c: Exceyive use of AI is threal for Enviosnment

d: Use of Chat GIPt is reducing the Skills of students

e: Use of AI Cause health and Safety Concerns for mankind

f: Increeye the disk for lose of Job opportunctio

g: AI Could destvoy huminity

within Years

5: Way forward to tackle the
Challenge of using AI
a: Develop national and
international regulations
b: Make AI a Part of
Company culture and
discussion
c: Inform technology with
huminitie, perspective
d: Develop awarney among
the People.

Sub Heading: AI is threat for privacy of mankind

There are many other reasons, which are threat for privacy of mankind, among them one is Artificial Intelligence. AI has ability to search easily to mankind privacy, to become a threat for mankind. At Present, worldwide due to excessive use of AI, which are Present in different forms in Computer Systems, and in Mobile, Hackers use the personal data of users, and do blackmale them. Therefore, Artificial Intelligence is

threat for Privacy of mankind.

Sub Heading: Chat GPT is reducing the skills of Youth

Along, with other reasons, excessive use of Chat GPT is also reducing the powerfull skills of Youth. The reason behind this is, because Chat GPT develop easiness for the Youth. Now, at Present Youth is avoiding the use of their natural skills and, they are mostly depend on the use of Chat GPT. In 2022, Various African

Countries such as Chad, south Sudan, the Central African Republic banned the ChatGPT. Along with them Italy also banned the ChatGPT in 2022 (CNBC, April, 2023) Therefore, among other causes ChatGPT is also reducing the skills of youth.
