## 6. Conclusion

### Introduction

A very miser old man who lived in a garden, hide his gold coins in a pit under the stone. One day, a thief stole all his coins - Old man started crying. His neighbour inquired the he ~~go~~ should hide his coins inside the house, so he could easily use the coins when needed. Old man said, he never buy anything from <sup>that</sup> this gold. Neighbour gave him a stone that it ~~was~~ is as worthless as gold.

It means that proper utilization of resources is necessary, otherwise they are worthless. In Pakistan,

treasure i.e. educated youth is available but no prospects are being created for its utilization. Some of reasons for non-utilization of youth are lack of technical education in the institutions, proper vocational training and insufficient job opportunities. Its effects are drastic, as educated young people are moving abroad in bulk quantities, indulging in criminal activities and facing serious mental health issues. Economic situation of the country is further deteriorated. Immediate steps must be take like internship programmes and adequate GDP allocated to educational departments. Therefore, educated young people are being exploited due to lack of opportunities in the country. Its impacts are far-reaching on overall development of the country. Adequate facilities must be devised to utilize
