Introduction.

Harassment at workplace is not acceptable please do not tolerate it, take action against it, which cause gender inequality and violence. This means that female harassment at workplace exposes deeper social faults. First of all due to inequality either economically or in job market female harassment at workplace started. It is true that early childhood development and political behaviour of men is responsible for this

Curse. According to some experts lack of education and false perceptions created by media cause female harassment at workplace. This is a serious threat to society due to this an organization faces reputational, legal and financial losses. On the other hand it restricted women into formal. They were not allowed to work. Due to this curse female faces psychological stress, which affect their career. It would be easily removed by establish clear implementation policy, through awareness campaign. And also by arrangement of training for employers. It also needs to introduce strong legal frame-
work and safe work environment. Female harassment at workplace is a widespread and injurious
