## Economy of Pakistan

Pakistan is facing challenging situation. Pakistan's economy befall day by day especially after the arrival of new government. Pakistan has also devalue its currency because its growth rate becomes to diminish. In fiscal year 2023 the Pakistan growth rate is 0.29% which is shockable the reason is that Pakistan growth rate in the year 2021 was 6.49% growth when economy of Pakistan crash government impose heavy taxes on the people, due to this inflation in common people increase and the people are facing hard time.
