

Incompetent government employees is a menace for Pakistan's growth.

Incompetency in government institutions is the biggest menace for Pakistan's growth. Government employees need proper training and practice before taking charge of duty. Pakistan, having more than eight ~~million~~ ^{lacs} federal government employees, miserably failed to achieve its target. Proper check and balance need to be done in order to achieve desired goals otherwise incompetency led to disastrous results. "The initial investigation report on Hazara Express derailment reveals that the fish plates of rail track were missing and at some points wooden pieces were used to join broken track." Unfortunately, Pakistan's economic growth can not be possible without proper and competent government staff.

Pakistan should follow the Anglo-Saxon model of Free trade.

Pakistan's abysmal state of Capital or economy will flourish, if it follow the Anglo-Saxon "Free trade" model. The West rule the economic world by adopting the US led Anglo-Saxon Capitalistic model of Free trade. Pakistani policy makers needs to carry free trade ~~policy~~ policies in order to compete the world rising economies. "China becomes member of WTO in the turn of the century, China's GDP was barely 13% of USA GDP but after twenty three years, this number is around 70-75%." (IMF, 2021) Therefore, Pakistan's only choice to rejuvenate its economy by following the footsteps of Free trade model.

Collective approach is the greatest strength of humanity to tackle climate change.

The greatest strength of humanity lies in our ability to come together in order to fight against climate change. It is the responsibility of each and every individual along with their government's to participate in this collective fight to save earth from natural disasters, occurred due to the climate change. Collective action could bring sense of community and connectiveness to tackle the ^{effects of} climate change. "Climate Change is the event of all problems, the thorniest challenge facing humankind" (Lewis Gordon Pugh) Therefore, collective approach could be used to eradicate the sufferings of climate change.

Cooperation is the only way forward: Pakistan-India Relationship.

The future of South Asia is dependent on Pakistan-India relationship and

the only way forward is "Cooperation." Through cooperation, the

fierce rivals of World War-II - Germany and France - becomes

economic giants in just sixty to seventy years. Both Pakistan and

India have huge potential to become the next "France and

Germany" only if the sanity prevails. Atal Bihari Vajpayee once said,

"We can change our friends but not our neighbours." Therefore,

only through cooperation between India and Pakistan - South Asian region will excel.
