Terrorism: A new wave of terrorism knocking doors.

### Introduction:

Terrorism is one of the serious issues of Pakistan. For many decades Pakistan is facing it. Once again if we look around the circumstances of our country recently, few months have raised serious red flags for Pakistan's security system. As in KPK and Balochistan, terrorist attacked security forces and as well common masses. Before some days in KPK a political convention was attacked and many people were martyred and majority were injured. On the other side Chinese firms and investments are under target. Moreover,

Pakistan is slipping towards disorder and instability over the past few years. The country has experienced as many as 18 suicide attacks in the first seven months of 2025, resulting in the loss of more than 200 lives and leaving over 450 other injured.

### **Islamist terrorist outfits**

Since the summer of 2022, TTP has increased operational activities in Pakistan. Furthermore, terrorist organizations are alongside Tehreek-e-Taliban Pakistan. TTP leadership appears to have consolidated control over the key networks. These extremist and terrorist organizations are joined by illiterate people, because these organizations' slogan is that they are the true Muslims.

and they are the people who preserve Islamic culture and norms, due to this slogan people are joining them, who do not know what is right and wrong. Therefore, Islam is used as their slogan in order to attract people. **separatist organizations in Balochistan.**

Balochistan is the province, which has great importance in world. But unfortunately it is facing a lot of issues. The separatist organizations, which claim that they are fighting for their rights and freedom. Last year 30 organized violent acts involving Baloch separatists and 95 deaths were recorded according to Pakistan military.

Wing press, OLA claimed attacks. These separatist organisations are the obvious threat to the country's peace. Moreover, Pakistan needs to do dialogue with them in order to maintain peace and harmony.

Why are terrorist attacks gaining momentum?  
→ Lack of writ of Afghanistan.

Since the Taliban seized control of Kabul, Afghanistan, a spike in terrorist attacks in Pakistan. Many times Pakistan struggled for dialogues with TTP but failed due to their unlawful demands. Afghan government assured that Afghan

Soil would not be used against Pakistan. But unfortunately attacks from TTP and terrorist groups are continued in Pakistan.

However, research shows that 3000, and 5000 TTP fighters are active in the terror territory of Afghanistan. Also, it is said that TTP works with al-Qaeda and Jamat Ahle Sunnat, and their main target is to make strikes against Chinese in Pakistan.

Hence, Afghanistan is a safe heaven for TTP and other terrorist groups.

### Raw in Play

It has been proved many times that India is a great supporter of TTP and Baloch militant

groups. The RAW agent  
 Gullab Khan Yadau was  
 arrested and he acknowledged  
 involvement of RAW in  
 Balochistan's issue. Furthermore,  
 India is assisting militant  
 groups financially. India's  
 main target is to sabotage  
 CPEC projects. Therefore, RAW  
 is the great supporter of  
 these terrorist organizations.

**Intelligence-based military  
 options must be resumed**  
 Intelligence based military  
 options must be resumed.

To contain the re-rooting  
 of military in ex-FATA,  
 in KPK outskirts of KPK  
 and Balochistan, operations  
 ensure that there is not  
 any space for the terrorist  
 outfits to use the country's  
 resources and land. However,

operations like Badat ul Fahad and Zarb e Aghab are needed to eradicate terrorism.

**Islamabad needs to pressurize Kabul to deliver.**

Every country has its own sovereignty and the other states must recognize it. The terrorists are coming from the territory of our neighbour country Afghanistan. And there is no any action taken by Afghan government. Pakistan must take painful decisions. It is the time to stress Taliban government.

**Extensive engagement is necessary.**

Pakistan had started dialogue with TTP in past.

but failed due to the unconstitutional demands of I.T.P. Pakistan needs to engage with the Taliban government to secure borders. It is a menace for both Afghan government and Pakistan. International should provide assistance to counter terrorism.

**Neighbours should act positively: China, Russia, Iran.**

Terrorism is not only the issue and threat to Pakistan but it is also threat to neighbouring countries: China, Russia, Iran. It is their responsibility to assist Pakistan and put pressure on Afghan government to remove these organisations from their land. It is the time

to come on one platform and to get rid of this evil. There is the requirement of positive role from regional actors.

### Conclusion

The geo-strategic and geo-political location of Afghanistan in Asia caused decades of war and misery for Afghans. It is the heart of world. Asia playing important role in world politics. Further, Pakistan and India have conflicts from the beginning and their focus is to buy more weapons and to threaten to each other. Their main focus should be on better economy cooperation, regional integration. They have to work together and fight against terrorism.
