

## Education's Impact in Pakistan

Education plays vital role to bring improvements in country. In world, those countries have reached at moon who have paid attention towards education. Moreover, system of schools/education decides ~~decide~~ about nation. If academic system is effective it will give positive result. Secondly, as quoted by Nelson Mandela "If you want to destroy any nation, snatch education from that nation it will be destroyed itself." Education decides about nation strength or weakness in upcoming time. If we will focus on education sector now it will give us amazing results in future. Hence it is quoted "education or classroom decides the future of nation." If youngsters of country will <sup>work</sup> hard in education sector it can give tremendous results in other sectors such as economic, IT, Law, developmental, politics, management and ~~other~~ history. Teachers, in education sector <sup>should</sup> work as facilitator so it can encourage students to learn things easily. As quoted by Malala Yousif zai "A good student, a pen and a book can change the world." If the educational system of Pakistan is better now it will get better results in future otherwise, Pakistan will be facing hard days in every sector.
