

Extremism in Pakistan:

In Pakistan, there is stock of extremism which is being used by multiple extremist groups. Both religious scholars and state's officials are responsible for it. State's officials does not rein the scholars so far who spread wrong interpretation of Islam; therefore hatred in muslims of Pakistan are increasing day-by-day. Resultantly, mob rampage targeted christians in Faisalabad's Jaranwala areas where 17 churches and 80 houses of christians were burnt by muslims. It does not only present wrong face of Islam to world's people but it also exacerbated Islamophobia in the ~~heards~~ hearts of non-muslims in the world. Hence extremism is elevating day-by-day in Pakistan.
