

TOPIC:

Mankind faces the challenge of using AI responsibly.

OUTLINE:

1. Introduction

Thesis Statement

2. Crunch Paragraph

3. Challenges regarding use of responsible Artificial Intelligence to mankind

a. AI machines are violating data privacy.

b. Robots can't handle unpredictable situation as it's not included in its algorithm.

c. AI is threat to democracy

d. Responsible AI is threaten to society regarding public safety.

e. Difficult to control AI machines

f. AI tools can create misinformation from previous stored data.

g. AI models use energy consumption to operate

4. Impacts of irresponsibly use of AI

a. AI reduced jobs for human workers

b. AI machines can injure to humans if not used responsibly

c. Misuse of Facial recognition

d. Irresponsibly, use of AI may lead to create Dangerous AI weapons at global level

e. AI models are keeping an eye at humans data all the time which may be misused against them.

f. AI algorithms trained on biased data can result in unfair decision-making

5. Suggestions towards responsible use of Artificial Intelligence

a. Use algorithms that can track AI machines

b. Make rules and regulations for legal use of AI at global level

c. Promote ethical use of AI

d. Security measures to address misuse of AI

6. Conclusion
