Pak affairs quiz 1

The ascending potency of hybrid warfare being foisted on the state of Pakistan is adding to the security woes of the country. Elaborate with example.

Introduction:

Hybrid warfare is the theory of military strategy in which propaganda, tactics and misinformation campaign to destroy a nation politically and economically. They also make fake news on social media just to destroy the other. Hybrid warfare is the 5th generation warfare.

Hybrid warfare:

It is the 5th generation warfare and also a military strategy. In hybrid warfare we did not attack or war directly but with other ways like misconduct, propaganda and fake news on social media we destroy other state.

Hybrid warfare being foisted on state of Pakistan:

One of the major issue of Pakistan is hybrid warfare. It is destroying

The economy and foreign policy day by day. Hybrid warfare not only destroy the military but each and every person whether it is related with military or not. Lay man did not attack on other but getting attacked by other. It is the 5th generation warfare and through Propaganda and illegal way one destroy other.

Our foreign policy, currency rate decreases due to hybrid warfare. A country or a state totally run on foreign policy if it decreases and torn into pieces the whole country will be effected. It is the strategy of military to scube the country when they fail other nations attack through hybrid warfare and destroy a nation or a country deeply.

Hybrid warfare adding security woes:

By Hybrid warfare our economic position can be effected very badly. Economy is the major point of every country through a country can be stable.

Cyber attack is also cause of Hybrid warfare. Our Military will attack no other and it will damage the country and the people. Currency rate will also decrease. By 5th generation warfare value of Pakistani rupee will decrease day by day when rupee will convert in dollar it cost 0 (zero).

Conclusion:

To conclude we can say that Hybrid warfare can effect a country very badly. A country like Pakistan which is already facing the problems and economic disturbance. Because of all these problems Hybrid warfare effect the country and also a danger for security issues. This is just a fight of military but the whole country effected by it.
