Sub Heading :- Nuclear challenge to world peace during the 21st century

energy is not the challenge! weapons are

Topic Sentence

Nuclear energy has greater challenges and threats to the world peace during the 21st century.

Explanatory Sentence

Among these challenges, the most threatening to the world peace is transportation, storage and disposal of used nuclear fuel.

(www.nti.org, nuclearnonproliferation, Nov, 2019)

Supporting point

If these fuels are not properly stored or its improper disposal occurs, it can destroy the peace of the whole world and leads to castatroph.

Example

One <sup>of</sup> the examples of such castatroph is Fukushima nuclear disaster (2011) Japan, the world <sup>is</sup> second worst nuclear accident

(www.world-nuclear.org, Nuclear Essentials, 2023)

how it threatened world peace?

Concluding sentence

Hence nuclear energy still had alot of all challenges to the world peace during 21st century.
