Day: _____

Impact of war on civilization

Indent the paragraph.

According to ^{the} author, war has been the ultimate cause ^{of} for the failure of civilization. War has left devastating impacts on its addicts that they found no way to escape until ^{its} ^{beginning} ^{perilous} effects became evident. In the beginning, the ^b benefit of war might seem to ~~be~~ ^{exceed} exceeded ~~from~~ ^{its} its devastating effects in the form of ^e Economic and defence growth. Hazardous effects of the war ^{rise} rises, when the state reserves more energy and resources for military use ~~rather than to spend~~ ^{instead of spending} it on Society growth. In the past, when this serious threat between war and civilization ~~was~~ ^{was} been recognized, then steps ~~have~~ ^{were} ~~been~~ taken to get rid of war in time to save Society. In order, to gain peace each individual must have to perform his duty either by direct or indirect means. An individual refusal to war initiated by ~~his~~ ^{its} state is a powerful stance against institution of war. In comparison, a collective strategy to resolve an international issue considered ^{unheroic} unheroic. ~~At last,~~ ^{The} author considered second option for more better choice.
