

where is the main passage or any reference of it???

~~Topic~~ Flawed State Education Systems

Education does not evolve itself.

It reflects the image of the society as it teaches the knowledge of the future of education to the people. The ~~would be~~ defined by the family, demographic factors and the innovations.

The Educational Systems will decide the subject selection, keeping in view the technological aspects.

As Horace Mann said that the education is the basic elements of the nations and it will be used

Specifically for the sake of technology. Despite the sense of realization for

the advancement in education, the state systems of education may not

go with the flow because of poverty
and cultural Coes^osion.

T. word
word count = 101
= 300

basic grammar is weak
as there is no main passage therefore only grammar
and sentences are assessed
