Sub heading: Climate Change is
a reason of food insecurity

Along with water crisis,
climate change ^{has} also become

a cause of food insecurity
in Pakistan. Due to climate

change, disasters are occurring
in the country which leads

to food insecurity. Pakistan

is the third victim^{SP} of climate
change in worldwide. In 2002,

due to flood in Pakistan,

\$ 872,000 Live stock ^{was} killed

in the country, crops were

damaged especially in Sindh

76%, ^{which} ~~is~~ causes severe

food crisis in Pakistan; (IPRI,

۲۰۲۲). Thus, Climate Crisis
Plays a major role in food
insecurity in Pakistan.

Sub heading: Increase in Population of the Country

Increase in Population of

~~the~~ the Country is ~~the~~ ^{SP} key factor of ~~causing~~ food insecurity.

Because due to increase in Population, agriculture is becoming less as compared to Population.

^{Large} Population ~~has~~ become a challenge for the agriculture, and industries in the country to meet ^{SP} with the equal production. Due to ~~low~~

~~Product~~ high Population 37pc
of Pakistanis are food insecure
and one fifth of them are
hungry? Severe food Crisis

(World food Programme, 2023).

Along with other reasons Increase
in Population has become a
leading cause of food
insecurity in Pakistan.

Revise present perfect tense

Sub heading: Lack of Management of agriculture sector

In agriculture sector, ~~due to~~ lack of management ~~has~~ become a challenge for food security in Pakistan.

Agriculture sector is become a reason, because of lack of resources in the country which cannot meet the production.

Recently, ^{due to} lack of crisis which became a reason for lack of resources in the country that is a cause of food insecurity in Pakistan. In 2023, inflation was high, agriculture sectors are unable to achieve

confusing

their goals, it cause a food security challenge in the country;

~~It~~ ~~along~~ ~~with~~ ~~other~~ ~~reason~~ (food and agriculture organization of UN, 2023)

Thus along with other reasons lack of management in agriculture ~~has~~ also become a challenge for food security in Pakistan.

Sub Heading: Political Instability in the Country

At present times, Political Instability is on Peak level in the Country which become a cause for food Insecurity in Pakistan. In Pakistan, due to Political Instability Country. Law and order system is not good which create hurdle in the maintenance, along with them food security is one of them. In Pakistan, at present Political parties are busy to attain their own interest instead of focus towards food security in Pakistan. In 2023, Political

stability level in enhancing in
the country with the passage
of time, which become a
reason for food insecurity in
the country. Therefore, Political
Instability is also a major
role in food insecurity in
