

Mashaal

Assalamu'alaikum! Ma'am, your appreciations, criticism, guidance mean a lot to me. Please, guide me how can I improve my outline

Turning a blind eye to militarism adventurism or a threat to environment."

Improved version of previous outline

OUTLINE

1. Introduction

Thesis Statement: For multiple reasons, states are turning blind eye towards military adventurism, eventually threatening both the political landscape and the natural environment. This necessitates a few measures to redirect the focus towards the impacts to mitigate militarism.

2. Exploring the relation between military adventurism and the environment

3. Reasons leading to military expeditions

- a. Powerful states quest for global hegemony
- b. Military operations being used as a tool to achieve political objectives amidst power struggles at home
- c. Continual growth of defense spending

4. Threats to the political landscape environment

- a. Destabilizing the global power structure
- b. Halting of diplomatic relations
- c. Hinders global cooperation in shared challenges
- d. Results in alignment of states with military alliances
- e. Disrupts global supply-chain

5. Threats to the natural environment

- a. Complete negligence of military shares in carbon emissions resulting in climate change

mention threats generally

↓ Dedlobalization: Move from collective to individual defence

how? ←

clarify →

W. salam, glad to hear that if it's meant for me i) Kindly leave feedback in the 'feedback' tab

use keywords of essay

topic: adventurism

← Make sure you have distinctive evidence for all these subpoints

... of the environment of the world ...

cause

b. Navel exercises ending up in marine pollution

c. Military skirmishes leading to nuclear war - the greatest threat to the natural ecosystem

d. Forced displacements of human beings due to ^{burdenize} ^{the} ^{urban} environment of the ^{host} country of military installation and activities disrupting wildlife migrations

discuss this in political as well by analyzing economic resources that refugees put on host country.

war refugees natural resources countries

6. Recommendations

- a. Strengthen the role of IGOs?
- b. Increase cooperation through diplomatic channels.
- c. Ensure countries abide by international laws.

Generic

7. Conclusion

outline is not comprehensive this is an IR as well as environmental science topic discuss how military ad leads to poverty etc by using all budget on mil than human dev also how much heat is released in env due to mil experiments such as nuclear warheads, missiles etc

Attempt Again!

Is Pakistan facing the challenge of hybrid warfare efficiently?

OUTLINE

1. Introduction

Thesis Statement: Pakistan is not facing the challenge of hybrid warfare efficiently but those who disagree argue that the country is dealing well with the challenge. Their arguments, however, carry less significance due to various reasons.

Write arguments only - commentary

2. Defining the concept of hybrid warfare

3. Pakistan is not facing the challenge efficiently

- Unchecked political polarization making the country conducive for exploitation
- Economic reliance on FIs exposing the state to international lobbying campaign
- Declining employment opportunities making the youth vulnerable to aggressors exploitation
- Unabated sectarianism giving rise to extremism
- Increased poverty leading to susceptibility of the masses to non-state actors
- Unsettled inter-provincial conflicts being a major fault-line causing national discord
- Separatist movements adding fuel to hybrid warfare
- Weak technology of the country risking cyber attacks
- Unmanaged
- Unresolved territorial disputes with

your friend to appreciate and find out what is the best solution?

neighbours ending up in perpetual war

4. How Pakistan is dealing with the 5th generation war

a. Increasing military spendings year-on-year bases

b. Conducting military operations against terrorism

c. ~~Adopting~~ **Evolution** policies to cope up with the hybrid war

d. Improving cyber security through robust technology

e. Using diplomatic means to bring peace with the hostile neighbours

Enhancing non-military engagement with northern and western neighbours

Above arguments are insubstantial due to following reasons

a. Military spending is less than that of rival's military expenditures.

b. Terrorists are still at large, frequently attacking the masses.

c. Diplomatic efforts have been ineffective due to weakened position in the global arena

d. Bad governance impedes policy implementations

e. Spread of disinformation and narratives is more prevalent than cyber attack.

5. Conclusion

Attempt Again

Restructure the outline the following way

1. intro
2. crunch
3. Pakistan is not facing the challenge of ... (counter argument)
4. Pakistan is facing the challenge of ... (your argument)
5. way forward (optional)
6. conclusion

in point 3, discuss the most significant arguments of the opposing side of your stance. then in point 4, convince the reader of your stance by countering all the arguments of point 3 and by discussing more arguments in Favour of your stance

the goal in mind should be to convince the reader of your stance.
