Threats To national Security of Pakistan

Pakistan is facing serious threats relating to its national security. These threats include ~~the~~ traditional as well as non-traditional. ~~Threats~~. Among traditional are ~~the~~ external threats that seek to undermine the security of ~~the~~ state ~~Pakistan~~ and its territorial integrity. While non-traditional are those security threats which are challenges to survival and well-being of people of Pakistan like climate crisis, natural disasters, drug trafficking, food shortages, etc. Consequently, Pakistan is moving towards instability day-to-day. The instability affects the economic stability, and social harmony and continues to instil a sense of insecurity among the citizens at large. To ~~be~~ concluded, it can be said that the threats to the national security which are witnessed in Pakistan are leading the country into hot waters.
