

"2018"

Title

write a clear relevant title in a proper meaning

Climate on Struggle

what are you trying to say???

~~The~~ Situation of Climate is Changed on both equators the difficulties and barriers of Climate are always being faced but still had a hope to out come from the situation. The Northern European countries are very energetic in that manner because those people strive and face a very distortion of Climate but ^{contrarily} at the other hand some of us being lazy that time. They ~~do~~ ^{don't} only effort for itself but for family also and this keep them very active.

not even a single requirement of precise writing is fulfilled
precise is unclear and has no sense at all
main idea not picked and neither discussed
0/20

read the passage carefully
basic grammar is extremely weak
word count is missing
read the basic rules of precise again
