Role of Mothers in Making Personalities (Emotional nurturing and support)

The emotional ~~nurturing~~ and support of mothers plays a ~~profound~~ role in making of child's personality. Nonetheless, there is an incompressible bonding between mother and child, thus, each act of mother significantly impacts child's emotional growth. Hence, a mother creates a secure and safe environment for child's emotional ~~nurturing~~. Such as, when a child returns home after a tiring school day, the mother's comforting helps in developing sense of security and ~~value~~. Resultantly, a child builds self-worth and confidence. In essence, mother's comforting positively affects the emotional nurturing of a child. (91 words)
