

Q:2. what justification does the author claim for his belief in the scientific method

Ans: Author gives <sup>a</sup> justification and claims that scientific method is the only method which set the basis of beliefs because it is based on experiments, process and factual results. So, beliefs are bolstered by the scientific method.

Q:3: Do you gather from the passage that conclusion reached by the scientific method should be considered final?

Ans NO, conclusions that are gathered and reached by the scientific method should not be considered final because when we test same conclusion again and again it gives different results. The results of conclusion never remain the same, it varies time to time and person to person. Therefore, conclusions of the scientific method are not decisive.

Q:4 In what circumstances, according to the author, is it necessary to abandon the scientific method?

Ans According to <sup>the</sup> author, scientific method is not applicable for a ~~long~~<sup>short</sup> time because it varies time to time. When ~~you~~<sup>anyone</sup> ~~has~~<sup>has</sup> short time to carry test than he should avoid scientific method, because scientific method requires proper time and process to reach at exact conclusion. Otherwise he gets wrong conclusion.

Q:5 How does the basis of intuitive judgement differ from that of scientific decision?

Ans. The intuitive judgment is <sup>nt</sup> differ from scientific decisions because intuitive judgement is based on utter belief and faith. There are many things in the world that do not have physical evidences but people believe, and accept those things. On the other hand, scientific decision is based on experiments, scientific evidence, facts and results. Without whole process people cannot believe in results. Therefore, both intuitive judgement and scientific decision are different from each other.

# Busiest Creature: Cause of destruction

~~Title:~~ ~~Busiest Creature in the Universe.~~

~~Precis:~~ laziness: a blessing in disguise

According to <sup>A</sup> Author, all evils are invented by busy people, who do not know when and where energies should be used. They ~~become~~ <sup>are</sup> dissatisfied when they ~~are free~~. In the world, no one has permission to live free for sometime, they have to keep themselves busy. No matter, if they use their energy in wrong direction. Today's world would be change, if states men ~~decided~~ <sup>would</sup> to take some pause in 1914 and not to

do anything. If they go anywhere instead of Versailles, circumstances <sup>would have been</sup> different.

if they had gone

Presently, laziness <sup>is</sup> considered as a "evil" and people have to avoid it. Throughout history, religious ~~per~~ leaders <sup>have</sup> <sup>been</sup> criticizing women's appearance only rather than taking good measures to eradicate evil from society.
