

## Education's Impact in Pakistan

Education plays vital role to bring improvements in country. In <sup>the</sup> world, those countries have reached ~~the~~ moon <sup>Moreover</sup> who have paid attention towards education. Moreover, system of schools/education decides <sup>the fate of</sup> ~~decide~~ about nation. If academic system is effective it will give positive result. Secondly, as quoted by Nelson Mandela "If you want to destroy any nation, snatch education from that nation, it will be destroyed itself." Education <sup>decides</sup> about nation strength or weakness in upcoming time. If we ~~will~~ focus on education sector now, it will give us amazing results in future. Hence, it is quoted "Education or classroom decides the future of nation." If youngsters of country will <sup>work</sup> hard in education sector it can give tremendous results in other sectors such as economic, IT, Law, developmental, politics, management and ~~other~~ history. Teachers <sup>should</sup> work as facilitator so it can encourage students to learn things easily. As quoted by Malala Yousif zai "A good student, a pen and a book can change the world." If the educational system of Pakistan is better now, it will <sup>give</sup> better results in future, otherwise, Pakistan will be facing hard days in every sector.

Connectivity needs improvement.
