Nuclear Challenge to World Peace during the 21st Century.

| | |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic Sentence | The existence of nuclear weapons in countries that haven't signed the Non Proliferation Treaty (NPT) is a challenge to world peace in the 21 st century. |
| Reasoning Sentence | As the arms race poses an existential threat to global security, NPT aims to limit the spread of nuclear weapons. |
| Supporting Point | Four out of nine countries which ^{that} possess nuclear weapons haven't signed NPT, which may lead to mutually assured destruction of states on nuclear weapons usage. |
| Example | "The world's nuclear arm states possess a total of 12,512 nuclear warheads (ACA, Nuclear Weapons: Who Has What at a Glance, June 2023)." Among these, 454 nuclear assets are owned by non-NPT states, which are far more deadly than Hiroshima bomb. |
| Concluding Sentence | So, nuclear weapons are a challenge to world peace |

Also evidence how NPT non-signaling countries pose threat to peace
