6- Conclusion

Remittances is the stabilizer of economic condition of Pakistan

Remittances is the stabilizer of economic condition of Pakistan which shows that education is really the solution of Pakistan's economic conundrum. No doubt, Pakistan's economy has stabilized because of generation of remittances. Every year, Pakistan gets adequate remittances from people living in abroad for better salary and living standards. According to the latest report of Pakistan Bureau of Statistics, "Approximately \$38 billions decreases Pakistan's trade deficit." (Pakistan Bureau of Statistics, 2022). This stark reality highlights that remittances as the stabilizer of economic condition of Pakistan often promoted by educated people.
