

Q: Hamas - Israel Conflict and its impacts on regional and global power politics. Comment.

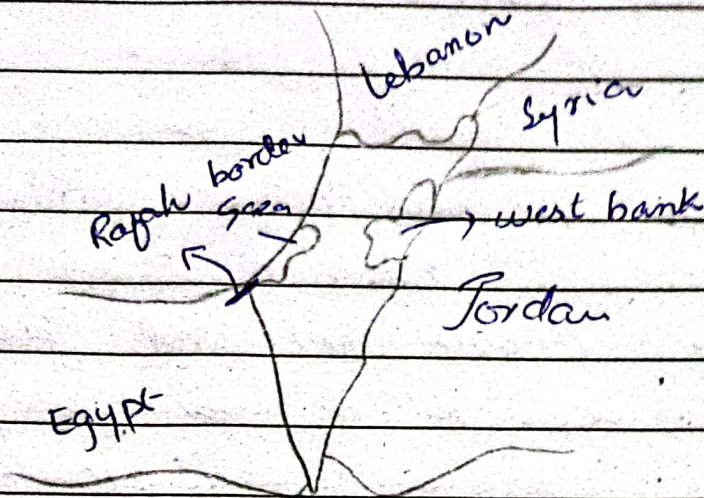

## UNPRECEDENT ATTACK OF HAMAS ON ISRAEL

On the beginning of 7<sup>th</sup> October 2023, Hamas - a militant group - thriving for the independence of Palestine - attacked unprecedently on Israel. It was the first time after 1973 when Egypt invaded Israel overwhelmingly. However, it was state backed attack, but in case of Hamas a non-state actor destroyed Israel's public places.

## FAILURE OF ISRAEL DEFENCE SYSTEM OR DELIBERATED VACUUM GIVEN BY NETANYAHU

There upon, two schools of thoughts presently expressing their motion. Firstly, the world believes that, the unprecedented attack was an outright failure of Israel's defense system including Masada. Gaza, the strip having only border crossing with Egypt at two points, properly examined by Israeli forces. Another side belongs to sea which is completely militarized by Israel forces. This hypothesis

encourages people to believe the acute failure of Israeli defense system

Secondly, another school of thought believes that Netanyahu wants another 9/11 by providing vacuum to the Hamas to enter in Israel and allowed them to massacre. In this way Netanyahu's regime would be able to portray itself as victim and Hamas as terrorist organization. However, several countries and western world has been influenced by this notion and thus declared Hamas as terrorist organization.

## IMPLICATIONS OF WAR; REGIONALLY AND GLOBALLY

"Even wars have rules, and these rules must be upheld, at all times,

and by all sides, (UN) Wars result in diverse and immense destruction - leading towards human exissts and socio-economic instability.

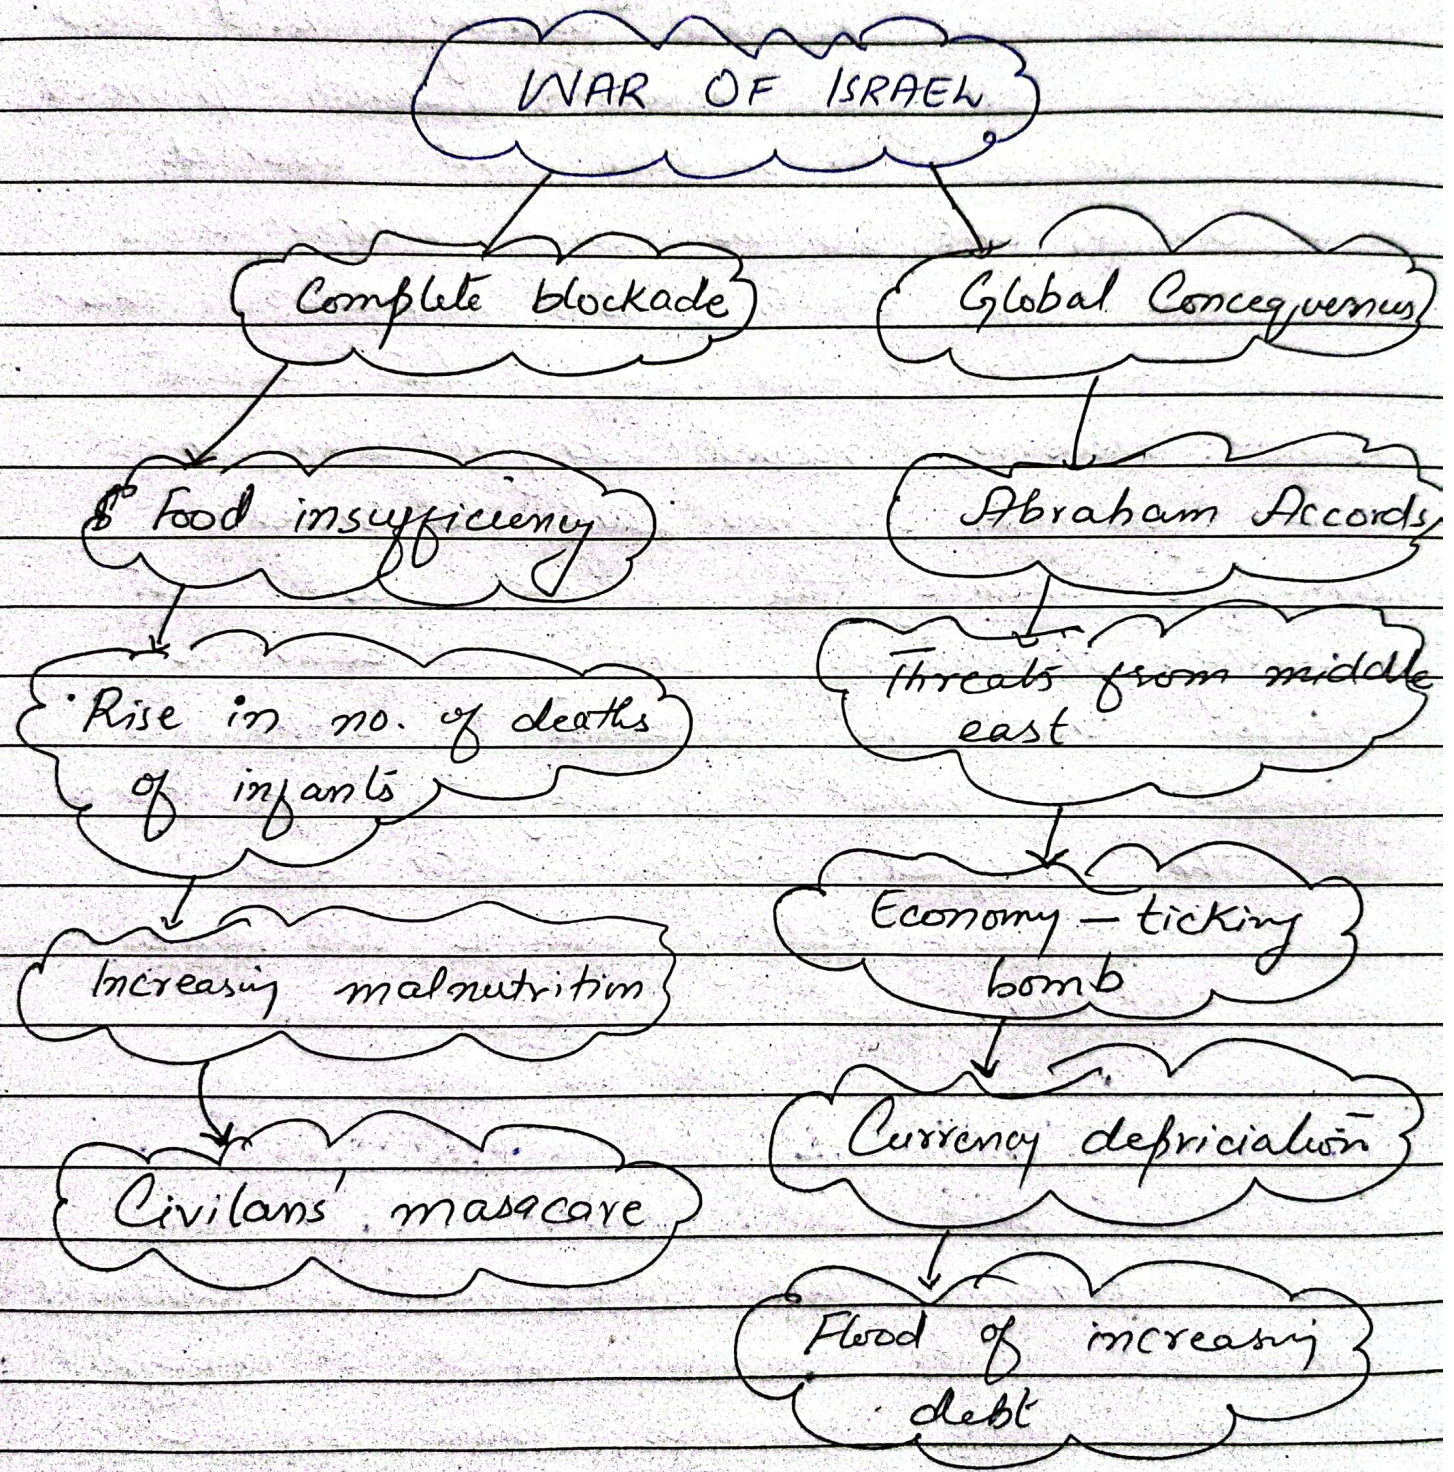

## i) WAR CRIMES BY ISRAEL - LEADING TO HUMAN CRISIS

More than 14,000 innocent Palestinian civilians have been killed brutally. In the name of operation against Hamas, Israel killed civilians to dominate the situation. On an average, 420 children have been killed every day, said UNO, since the Israel declared war. Such situation is leading the Gaza in more serious and terrifying situation. "Children's rights are human rights" (UN).

## ii) Outright Blockade - Threatening the Indigenous' lives:

Israel's another inhuman step was to blockade Gaza outrightly. Food, water, electricity and other necessities have been cut off since the war has begun. "Human rights are non-negotiable" UNO. Newborn babies and pregnant women are facing life threats due to severe mass destruction of hospitals, worship and educational places. Educational

institutions have been closed permanently,  
the right to live has been stolen  
from the malnourished

### iii) DETERIORATION OF ARAB-ISRAEL RELATIONS - DECAYING ABRAHAM ACCORD

The biggest break through during the crucial time was halting Abraham Accord. The accord was launched during mid 2020 to promote peaceful relations and diplomatic ties of Israel with middle east world.

Qatar, Oman, UAE, Bahrain and Morocco were the top states to normalize their ties with Israel, accepting its state notion. However, recent conflict influenced Saudi Arabia to no talk to Israel narrative, hence the accord lost its swing. Additionally, UAE and Bahrain threaten Israel if it doesnot stop genocide in Gaza, they might help Hamas in this respect. Jordan has already part its ties by calling back its ambassador from Tel Aviv.

### iv) BENEFITTING IRAN'S NARRATIVE - AGAINST US AND ISRAEL:

Iran during this scenario continuously announced its economic and technological aid to Hamas. However, Iran since begining of its revolution possessed anti US and Israel narrative got the

most benefit upon upholding the Abraham Accord. Iran is never been a strategic ally to Israel or US. Thus, appreciated Saudi "no talk" agenda after mass destruction and apprehension of civilians.

## v) EXPOURE OF BIASED STANDARD FROM US AND ALLIES

USA while supporting Ukraine's idea of free will and issuing red warrant against Vladimir Putin from International Court of Justice — ~~are~~ is unable to see Gaza. By overlooking the genocide, US and its allies are facing allegations of biased standard, followed by gigantic protests in their own states, against Israel. During security Council session UAE presented the resolution for immediate ceasefire in Gaza, 13 out of 15 countries voted in favour. While, UK abstained and US has vetoed the resolution — proving biased decision or hijacked institutes run by US not the world.

## vi) GROWING INFLUENCE OF CHINA IN MIDDLE EAST - ECONOMICALLY AND POLITICALLY

During the conflict of Israel - Hamas, China gained unanimous importance and diplomatic support from the globe. However, China backed Israeli ~~retaliation~~ retaliation but emphasizing ceasefire for civilians. In this scenario US's image has been destructed completely, on the other hand China got potential support as it broke the tensed relations of Saudi and Iran by normalizing their ties.

### CONCLUSION:

Severe atrocities and suppressing genocide by Israel broke every rule of war. Millions of civilians are compel to migrate to Egypt or Northern side and become again refugees like in 1993 to 2005. Such violences must be discouraged and organizations like UN should play their vital role - for what they came into existence. In the result middle-east and the whole world would face the consequences.
