

Precis (2016)

Last May, I had a trip to Cherokee, where I ventured a town called Qualla Boundry which was surrounded by Beautiful mountainous cite with traditional lifestyle of presenting image of Cherokee in 18th C. We went to the Souvenir shops that had antipacts like tomahawks, warbonnets made of turkey's feather. There we met a local nomad George who told us about livelihood of the locals in off-tour season through one of the means like Bingo weekend. Finally, we went to the town mpuseum where different arts like hand-woven baskets, and ~~carvato~~ carved figuranes were displayed. It was worth remembering trip. Therefore, looking to the next visit to the place like this.
