7- Conclusion

Topic :- Youth bulge in Pakistan: An Asset or a Liability.

1- Introduction

Thesis statement:- Youth bulge may be an asset or a liability for the state. Pakistan is an exceptionally young country and the youth bulge of the country has turned out to be a liability for the country. This is because high population and fewer opportunities are making youth prone to social evils and vices.

2- How youth bulge can be an asset or a liability for the country.

3- Youth bulge: A liability to Pakistan.

- a) Increasing idle population is a burden on the dwindling resources.
- b) Unskilled youth is causing the increase in crime rates.
- c) Unemployed population is adding no value to the economic development of the country.
- d) High population is adding to the evil of child labour and child trafficking.
- e) Gender disparity creates hostile environment for girls to continue education and jobs.

4- How youth bulge can be an asset for

a country

- a) Pakistan has enough resources for its youth.
- b) Crimes are part of every society either skilled or unskilled.
- c) Pakistan's population possesses employed youth, too.
- d) vices are due to moral degradation, not high population.
- e) Although small, but Pakistan ensures participation of women in almost all spheres.

5. What is making youth bulge an liability but not an asset.

- a) Country's richness of resources can only be measured when resources are properly managed and exploited by its consumers.
- b) Skilled youth has more earning opportunities and fewer chances of ^{committing} crimes.
- c) A meager employed population cannot deny the high unemployment rate of the graduates.
- d) High population and fewer opportunities are making youth prone to vices.
- e) Biased behaviours for 50% of the population of country can not make youth an asset.

6- Conclusion.
