b) Conclusion.

Introduction:

In the digital age Social Media has emerged as a powerful force shaping the dynamics of democratic societies. But, Social Media is both beneficial and detrimental for the advent of democracy. Social Media is multifaceted platform therefore, is beneficial for promoting democracy. Negatives of Social Media although can not be ignored but managed, when it comes to the positives of it. Youth is any nation's biggest asset. In the 21st Century youth is more or less influenced by Social Media. Besides integrating youth with democracy through Social Media, its easy access can also be beneficial for promoting democratic values. Because of Social Media, public can stay tuned with what is happening in the world. However, with positives come the negatives. The youth which is a nation's biggest asset can become a grave threat for it if exploited wrongly. But, benefits of social media overcome the negative impact of social media if it is managed properly.
