Democracy has failed in Pakistan?

In fact democracy has failed completely because Politicians always preferred their interests than that of Pakistan.

There is Price hike and Poverty has increased and there is a high ratio of unemployment.

These are the marks of failure of democracy.

Why do people want democracy? Because Public think they will elect Politicians and they will represent on behalf of Public in assemblies. They will provide basic necessities of Public that is called democracy.

Failure of democracy is in Pakistan. Everyone can see there is no enforcement of laws or constitution. In democracy everybody has a right to criticize the Policies of government but situation is different in Pakistan. In democracy everybody can contest ~~can~~ an election.

Everybody has a freedom to speak unfortunately ~~there~~ is where is no concept of freedom to speak and fair elections that country is not democratic but autocratic country. In autocratic countries people are dominated by implementation of black laws if anyone dares to speak against government his tongue is stopped.
