

## Essay Outline

# Humanity has opened the gates to hell

### 1. Introduction:

#### Thesis Statement:

Humanity has opened the gates to hell, because of the destructive progress and innovations of human beings in the field of technology, especially Artificial Intelligence which is clearing the way of Human-Robot war. Moreover, humanity disturbed the natural patterns of environment due to pollution, deforestation, and excessive use of hydrocarbons. Therefore, it is need of the hour to take preventive measures in order to close the doors to hell.

### 2. Overview of Human activities which has opened the gates to hell.

### 3. Factors responsible for human actions which opened the gates to hell:

- a. Manmade nuclear weapons posed a serious threat to human life caused a hell like situation in this world in the form of

innocent people killing.

- US bombing on Hiroshima, Nagasaki, and Israel attacks on Palestinians.

b. Increasing deforestation due to overpopulation disturbed wildlife and decrease the quantity of oxygen in the atmosphere which makes the world worst place for living.

c. Burning of fossil fuels increases the concentration of  $CO_2$  in the environment, results in global warming which is an open invitation to disasters.

d. Disturbance in the natural patterns of climate results in unprecedented rains and floods causes shortage of food, loss of species, and droughts.

e. Smoke releasing industries and vehicles are the chief sources of air pollution causes smog and health issues which converts the societies into pandemic like situation.

- Poor Air Quality Index of Delhi, Lahore, & Dhaka.

f. Human made AI empowered drones are used in drug trafficking leads the people towards drug addiction and money laundering which transforms the societies into frustration.

- g. AI deepfake image generator— advanced human invention of fake image creation, is a major factor responsible for propaganda war which opened the gates to devastation.
- h. Human designed applications and softwares such as Telegram is used for terror financing resulting instability and Terrorism which leads towards destruction in the form of innocents deaths.
- Wave of Terrorism in Kp & Balochistan.
- i. Advancements in AI empowered robots at a higher rate replaces humans in multiple fields, pushing them towards Human-Robot war.
- Killing of a worker by robot in South Korean industry.

#### 4. Remedies to Counter disastrous actions of human beings:

- a. Reforestation and plantation projects is need of the hour in order to increase the concentration of Oxygen in the atmosphere and prevent climate change damages.
- b. Transformation towards Clean renewable energy projects will helps in reducing global warming and dependency on hydrocarbons.

c. Practical measures must be taken by IAEA without any discrimination in order to stop the further development of nuclear weapons for the sake of prosperous world.

d. New innovations and advancement in AI should be balanced and controlled in order to prevent the world from destruction.

### 5. Cases in Point:

a. US-China tussle due to Chip formation:

- Formation of Semiconductor chips escalates tensions between United States and China in the ongoing Artificial Intelligence competition.

b. Devastating Flood of 2022:

- Due to excessive emission of  $\text{CO}_2$  by developed nation, there is  $1.5^\circ\text{C}$  increase in Global temperature which resulted disastrous flood in Pakistan.

### 6. Conclusion
