

TOPIC: Social media has destroyed real life communication
outline

1. Introduction

With groundbreaking transformation in our lives through social media, we are liable to accept its implications on our lives. Whether they are positive or negative. Instead of social media's importance in real life communication, it also disrupted our legal concerns. But to conclude the fact of social media, its positivity overrides its destruction.

2- ~~How~~ Social media's destructions on blessings in real life communication
