

(SECTION – B)

- Q. 6. (a) Find the area of a rectangular field whose length is 20 m and the length of its diagonal is 25m. (5)
- (b) A Crow travels 5 km due South, 3 km due West, 4 km due North and 2 km toward South-East. How far is crow from its starting position? (5)
- (c) Three persons, Zain, Ali and Umar started a bussiness with Rs. 150,000, Rs. 190,000 and Rs. 120,000 respectively. Zain manages the bussiness and receives allowance of Rs. 160,000 for this management. After 5 months Ali withdraws Rs. 90,000 and bussiness is closed after 9 months. What did each receive in the profit of Rs. 580,000. (5)
- (d) Mst. Razia Begum died leaving behind her property of Rs. 802,500 which was to be distributed among her husband, her mother and two daughters. The husband got $\frac{1}{4}$, mother got $\frac{1}{6}$ and remaining for 2 daughters. Rs. 7500 was spent on her burial. Find the share of each one. (5) (20)

GENERAL KNOWLEDGE-I (GENERAL SCIENCE & ABILITY)

- Q. 7 (a)** In a certain country, 7% of the total workforce is employed in tourism. 24.4 million overseas visitors came to this country in 2014. 2014 was a record year for inbound tourism. This level of visitors was 3% higher than in 2013. It eclipsed the previous record of 24 million visitors recorded in 2008. In 2014 the average overseas visitor spent US\$ 110 but average daily spend per visitor in 2013 was US\$ 60 while in 2014, it was US\$ 76.20. (5)
- What percentage increase in daily average amount spent occurred between 2013 and 2014?
- (b) How many visitors came to this country in 2013? (5)
- (c) What was the approximate percentage increase on the previous record number of visitors? (5)
- (d) If there are 30 m people employed in this country's workforce, how many work in the tourism sector? (5) (20)
- Q. 8. (a)** The sum of two numbers is 48. If the smaller number is one-fifth of the larger number, find the two numbers. (5)
- Parselet*
- (b) Find out the correct word from the jumbled spellings given below. (5)
- Assassinations*
- IUPNRT, AÉRPSTEL, LLARIVTTOUE, DCAAQOV, ANAISSSOITANS
- (c) A sphere of diameter 26 cm is half filled with honey. The honey is poured into a cylindrical beaker of diameter 16 cm. Find the depth of honey in the beaker. (5)
- (d) The ¹⁴breadth, ²⁰length, and ¹⁰height of a room is 14 feet, 20 feet and 10 feet respectively. (5) (20)
- There is also a door of room having height 8 feet and with 5 feet. Two windows of 4 feet by 5 feet are also there. The cost of paint and labour inside room is Rs. 100 per square foot. How much will it cost to paint the inner walls and roof of the room?

Special CSS- 2023

GSA Paper!

Q6(a) Find the area of a rectangular field whose length is 20m and length of its Diagonal is 25m.

Solution:-

Length of rectangle = 20m

Diagonal length = 25m

Area = ?

To ~~know~~ ^{find out} the area we must know base of rectangle which could be find out by:-
pythagoras -theorem.

$$\# (\text{Hyp})^2 = (\text{Perp})^2 + (\text{Base})^2$$

$$25^2 = (20)^2 + (x)^2$$

$$625 = 400 + x^2$$

$$625 - 400 = x^2$$

$$225 = x^2$$

Taking root on b/s

$$\sqrt{225} = \sqrt{x^2}$$

$$15m = x$$

Area of rectangle = $b \times h$

Area of rectangle = 20×15

Area of rectangle = $300m^2$

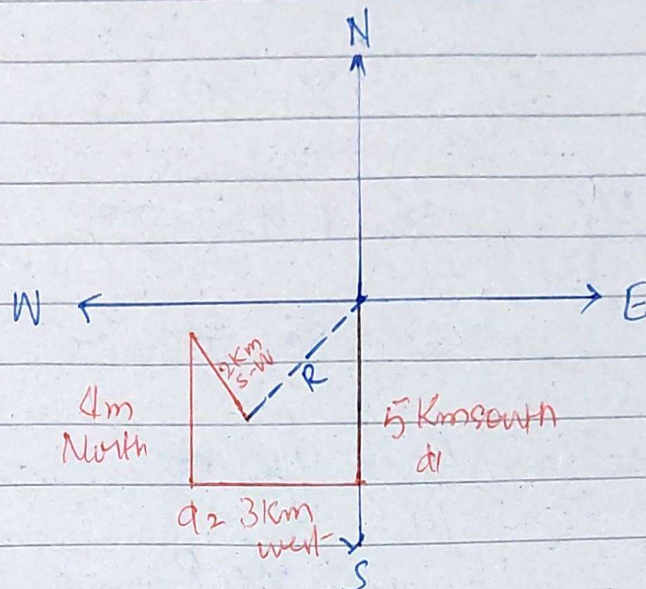

$$\begin{array}{r} 25 \\ \times 25 \\ \hline 125 \\ 500 \\ \hline 625 \end{array}$$

$$\begin{array}{r} 20 \\ 20 \\ \times 20 \\ \hline 400 \end{array}$$

$$\begin{array}{r} 25 \\ \times 15 \\ \hline 125 \\ 375 \\ \hline 375 \\ 450 \\ \hline 375 \\ 450 \\ \hline 625 \end{array}$$

$$\begin{array}{r} 20 \\ \times 15 \\ \hline 100 \\ 200 \\ \hline 300 \end{array}$$

b) A crow travels 5 km due south, 3 km due west, 4 km due North and 2 km towards South East. How far is crow from its starting position?

c) Data:-

Total profit = 580,000

Zain's allowance for business management = 160,000

Profit remaining = 420,000

Zain investment for 9 months = $150,000 \times 9$
= 1,350,000

Ali investment for 5 months = $190,000 \times 5 + 100,000 \times 4$
= 1,350,000

Umar investment for 9 months = $120,000 \times 9$
= 1,080,000

Umar	: Zain	Ali
1,350,000	1,350,000	1,080,000
45	45	29

15 : 15 : 12
5 : 5 : 4

$$\text{Share of Ali Zain} = \frac{5}{14} \times 420,000$$

$$= 150,000 \text{ Rs}$$

$$\text{Share of Ali} = \frac{5}{14} \times 420,000$$

$$= 150,000 \text{ Rs}$$

$$\text{Umar's share} = \frac{4}{14} \times 420,000$$

$$= 120,000 \text{ Rs}$$

Ans
2

(d) Darg

Total property = Rs 802500

Husband share $\frac{1}{4}$

Mother $\frac{1}{6}$

Remaining = 2 daughters.

Money spent on = 7500 Rs.

her burial

kind share of each.

802500
7500
795000

Sol.

First find money after burial

$$802500 - 7500$$

$$\boxed{\text{Money} = \text{Rs. } 795000}$$

$$\text{Share of husband} = \frac{1}{4} \times 795000$$

$$\boxed{\text{Share of husband} = \text{Rs. } 198750}$$

$$\text{Share of mother} = \frac{1}{6} \times 795000$$

$$\boxed{\text{Share of mother} = \text{Rs } 132500}$$

Remaining for 2 daughters

Remaining = Total after funeral charges -
Mother's share + husband's share

$$\begin{aligned} \text{Remaining} &= 795000 - (198750 + 132500) \\ &= 795000 - 331250 \end{aligned}$$

$$\boxed{\text{Remaining} = 463750}$$

$$\text{Daughters' share} = \frac{463750}{2}$$

$$\boxed{\text{Share of each daughter} = 231875}$$

Ans

Q7(a)

Data:

7% = work force employed in tourism

visitors visited in 2014 = 24.4 million

visitors in 2013 = 3% less of 24.4 million

visitors in 2008 = 24 million

2014 US spend = US\$ 110

Avg daily spend in 2013 = US\$ 60

↳ " " " " 2014 = US\$ 76.20

(i) What percentage increase in daily average amount spent occurred b/w 2013 and 2014.

Sol:-

$$\text{Percentage increase} = \frac{\text{New amount} - \text{old amount}}{\text{old amount}} \times 100$$

$$\text{Percentage increase} = \frac{76.20 - 60}{60} \times 100$$

$$\text{Percentage increase} = \frac{5.4}{60} \times 100$$

$$\text{Percentage increase} = 5.4\%$$

(ii) How many visitors came to this country in 2013.

As it is given that 3% less than 2014 visited in 2013

visitors in 2014 = 24.4 million

$$\text{visitors in 2013} = \frac{3}{100} \times 24.4 = 24.4$$

$$\begin{aligned} \text{visitors in 2013} &= 0.732 \times 24.4 \\ &= 24.4 - 0.732 \\ &= 23.689 \text{ million} \end{aligned}$$

second method

$$\begin{aligned} \frac{24.4 - x}{x} \times 100 \\ = 23.689 \text{ million} \end{aligned}$$

(c) What was the approximate percentage increase on the previous record number of visitors?

$$\% \text{ Increase} = \frac{24.4 - 24}{24} \times 100$$

$$\% \text{ increase} = \frac{0.4}{24} \times 100$$

$$\begin{array}{r} 100 \\ 04 \\ \hline 400 \\ 0.00 \times \\ \hline 040.0 \end{array}$$

$$\boxed{\% \text{ increase} = 1.667\%}$$

$$\begin{array}{r} 1. \\ 24 \overline{) 40} \\ \underline{-24} \\ 160 \end{array}$$

d) If 30m people are employed in the country's workforce. How many work in the tourism sector

Sol.

Workforce in tourism sector = 7%

$$\frac{7}{100} \times 30 = \frac{21}{10}$$

$$\begin{array}{r} 2.1 \\ 10 \overline{) 21} \\ \underline{-20} \\ 10 \\ \underline{-10} \end{array}$$

= 2.1 million people in tourism Department.

Q8

(a)

Data:-

Sum of two number = 48

assume larger = x

$$\text{smaller \#} = \frac{1}{5} \times x$$

Sum = 48.

Sol.:-

$$x + \frac{x}{5} = 48$$

$$\frac{5x + x}{5} = 48$$

$$\frac{6x}{5} = 48$$

$$6x = 48 \times 5$$

$$x = \frac{48 \times 5}{6}$$

$$x = 40$$

$$1 \times 40 = 40$$

$$40 + 8 = 48$$

C. Data

sphere Dia = 26cm

sphere is half Filled

Cylindrical Beaker Diameter = 16cm

Sol:-

$$\text{Volume of sphere} = \frac{4}{3} \pi r^3$$

$$r = \frac{d}{2}$$

$$r = \frac{26}{2} = 13$$

$$\text{Volume of sphere} = \frac{4}{3} \times 3.14 \times (13)^3$$

$$= 1.333 \times 3.14 \times 2179$$

$$= 9198.735$$

Since sphere is half filled: $\frac{9198.735}{2}$

$$\boxed{\text{Sphere Volume} = 4599.36 \text{ cm}^3}$$

$$\text{Volume of cylinder} = \pi r^2 h$$

$$4599.36 = 3.14 \times (8)^2 \times h$$

$$h = \frac{4599.36}{3.14 \times 64} = \frac{4599.36}{200.96}$$

$$\boxed{h = 22.88 \text{ cm}}$$

2) Data:

$$\text{breadth} = 14 \text{ feet}$$

$$\text{Height} = 10 \text{ feet}$$

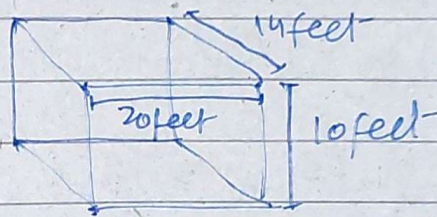

$$\text{Length} = 20 \text{ feet}$$

$$\text{Door} = 8 \text{ feet} \times 5 \text{ feet}$$

$$2 \text{ Windows} = 4 \text{ feet by } 5 \text{ feet}$$

Cost of paint & labour = 100 per sq foot.

Cost to paint the inner walls and roof

Area of 2 sides of wall

$$\text{Area} = 2(10 \times 20)$$

$$\text{Area} = 2 \times 200 \text{ ft}^2$$

$$\text{Area} = 400 \text{ sq ft}$$

$$\begin{array}{r} 20 \\ 10 \\ \hline 00 \\ 200 \\ \hline 200 \end{array}$$

Area of other sides of wall

$$\text{Area} = 2(14 \times 10)$$

$$\text{Area} = 2 \times 140$$

$$\text{Area} = 280 \text{ sq ft}$$

$$\begin{aligned} \text{Area of roof} &= 20 \times 14 \\ &= 280 \end{aligned}$$

Total area of room =

$$280 + 280 + 400 = 960 \text{ sq ft}$$

$$\text{Area of door} = 8 \times 5$$

$$= 40 \text{ sq ft}$$

$$\text{Area of windows} = 2 \times (4 \times 5)$$

$$\text{Area of windows} = 2 \times 20$$

$$\text{Area of 2 windows} = 40$$

$$\text{Total area} = (\text{Area of door} + \text{window})$$

$$960 - 40 + 40$$

$$960 - 80$$

$$\text{Total area to be coloured} = 880 \text{ ft}^2$$

$$\text{Price for 100 sq foot} =$$

$$\text{Cost of labour} = \text{Rs. } 100 \text{ per square foot}$$

$$\text{Cost of labour} = 880 \times 100$$

$$\boxed{\text{Cost of labour} = 88000 \text{ Rs}}$$
