5- Conclusion

Lack of accountability in all tiers of government

Pakistan, unfortunately, lacks accountability in its all tiers. Every department has been caught in a vicious cycle of corruption deeply. In consequence, Pakistan has a bad image at global level regarding accountability mechanism. As per report, "Pakistan ranks 140th out of 180 countries in corruption perception" (The Corruption Perception Index, 2022). This clearly shows that Pakistan lacks accountability in its all departments.
