Title:

Greek's Mythology of gods:

The nature of oracles and mythology centres in the Ancient Greece. In which the voice of pleasure or wrath of the god would appeal to the people. It was a way of guidance as well as to address the fear of human beings. In the line of oracles, different gods were adopted for performing various jobs and activities. The future-teller would decode the sayings and symbols of those happiness and pains of the gods. The interpretation included lightning, fire burning (direction) and dreams. Moreover, the response of the gods to the sacrifices were also decoded. The revered gods and goddesses included Zeus, Apollo and Demeter. In short, Greece believed the gods to be the saviors of humanity.
