

2021 Precise paper

Title: Contribution & work of Nizar Hassan

Nizar Hassan a filmmaker after graduating from Haifa University, produced 2 films "Independence" and "My Grandfather's Path". The message was beautifully and masterfully portrayed in both films. "Independence" was about how Palestinian feel and think about the Israel's notion of blatantly occupying the Palestinian land and calling it independence. While on the other hand the film "My Grandfather's Path" portrays the art and beauty of Palestinian culture, literature, cinema and fiction. Although the film is mercifully long but beautifully paced and masterfully crafted. One should see it entirely in one go. It portrays the struggle of Palestinian people. It also highlights the need for the oppressed not to become dehumanized like their oppressors. The avenue of the film can save the people from destructive resentments.
