

Q. Explain the Palestine Israel conflict with the attack of Hamas? Also write down the implication of Israel war on regional and power politics?

Attack of Hamas were unprecedented:-

The border crossing were surprising almost 2000 plus Hamas fighters crossed the border in 3 different ways. Firstly, of all majority fighters made the land crossing. The walls were broken through bulldozers.

The cameras installed, these were hit through drones.

This facilitated easily to cross the border. Secondly, many of the fighters sailed in to the sea towards the North of Gaza and landed of Israel territories.

Thirdly, more than 200 Hamas fighters entered into Israel territory through paragliding.

Huge number of Missiles were fired by Hamas against Israel:-

The Hamas fighters fired huge number of missiles into Israel territory. Israeli government said around 2000 mortars, while Hamas claimed to fire more than 5000 mortars. The Israel air defense system could not intercept the majority of mortars and 13 different cities were heavily bombarded.

The grand Attack of Hamas were numerous and surprising:-

The Hamas fighters that entered into the Israeli territory attacked the security forces on the border and the majority of check posts were neutralized. Two of the major military bases were targeted. A series of attacks were made against the celebration of "Yaum-e-Kafar Day" (Tents Day).

"It is the day on which DAVID (Hazrat Dawood A.S) and Suliman (Hazrat Suliman) defeated the local and installed tents in Jerusalem"

The civilian areas were together which were recently captured by Jews and Muslims.

"Hamas fighters not only killed but brought prisoners of war into Gaza"

The Hamas fighters killed more than 1400 Israel including soldiers, policemen, settlers etc. and 200 injured. But the most astonishing factor

was Hamas captured approximately 230 Jews and brought them into Gaza and made them the war prisoners. Their release were conditioned with settling Hamas fighters free by Israel.

Israel War on Gaza Strip

7-Oct to 20-Nov 2023

Killed = 17,144

(i) Civilians = 15,482

(ii) Childrens = 7,208

(iii) Womens = 3,716

Damaged School = 253

Injured = 33,830

Displaced = 1,700,000

Damaged mosque = 80

Targeted Health Staff = 442

Murdered Journalist = 60

Completely destroyed Units = 5,645

Partially destroyed units = 1,62,950

"People actually targeting and killing Palestinian Civilians - it's unacceptable"

Major Shift in UK's Stance on Israel

as ex-PM DAVID Cameron returns as foreign

minister - Warns Israel to "abide by Law"

Failure of Israel Defense System

It was in 1973, that Israel borders was overwhelming crossed by Egypt. It was Egyptian tanks but recently it was by Hamas fighters (non-state actors). The Iron Dome, that is the air defense system of Israel, significantly failed to intercept majority of them missiles fired by the Hamas. This system was installed in the border with Lebanon to counter the attack of 'Hizbullah' and the border with Gaza to counter the attack of Hamas. Whereas, Hamas fired more than 5000 missiles while the Iron Dome could not intercept more than 50% of the rockets, which successfully hit the target.

The border of Israel with Gaza called to be the most protected and technology equipped and well constructed wall having concrete base on more than 3m under the ground. Hamas bulldozers not only bulldozed the wall but the also camera system installed were intercepted the Iron based drones used by the fighters. This provided Hamas fighters to enter into Israel territories and inflict losses in Israel in magnitude.

It was an outright intelligence failure of Masad, the intelligence agency of Israel. Every export and import into Gaza is made through two crossing on the border with Israel.

This entry and exist strongly monitor by Israel. There is a ban on the entry of cement, steel into Gaza. A million dollars questions in how come Hamas made a such big entry of 'weapons' in Gaza. Even more surprising in the fact that Hamas continue the training for more than 6 months to execute its plan. It is beyond comprehension how such a big activity could not be intercepted by the intelligence agency of Israel.

Implication on Regional Politics :

"One of the biggest human tragedies in the modern world". The world experienced many deadliest wars. Like World War I, World War II, Iran, Iraq war, Russian Ukraine war, Numerous Arab Israel war but this attack of Israel on Gaza has crossed every limit. Israel has dropped down more bombs on the narrow strips of Gaza since, 7. Oct 2023. Then US dropped on Iraq 2003 and Japan in 1940s. The Iraq US troops each and every house and apartment in the urban centers of Iraq after invasion, but Israel decided to destroy everything more than 30% of the Plaza and towers mostly residential being razed to ground. In the process still continued that (Education Institute, Hospitals, Religious centers, are not forgiven by Israel.

More than 15,000 including 300 children (Palestinian) being killed and more than 30,000 are injured. More than 40% of the population has lost their homes and being displaced to the south of Gaza. Electricity, water, food and fuel supply remained suspended in the area. More than 40 days, any kind of food, medicines and other aid was not allowed to enter in Gaza as Israel was not ready to cease fire or even for humanitarian pauses.

This turn the world largest open air prison into a hell into Local Population. "Netanyahu" (Pm of Israel) and his government have been involved in the heinous war crimes. Surprisingly, International Criminal Court that announced "Putin" (Russian President) to be involved in war crime has not spoken a word against Netanyahu. The global north i.e. U.S and Europe who are the champions of the fundamental rights have been silent on the war crimes committed by the Israel against Palestinians.

Implication on Israel and Arab World Religions :-

Bahrain that signed Abraham deal in 2020, cuts off its diplomatic relations with Israel. U.A.E, Oman and even Jordan down sized their diplomatic relation with the Israel. Jordan, Egypt and Palestine Authorities were supposed to meet Israel; countless post cancelled their meeting.

after the crimes committed by the Israel.
Saudi-Arabia Israel Normalization relation was
on the card :-

Media organizations and white house claimed that
delegation of each other country were the capital
during the time of the attack But after the was intensified
Mo Bin Salman not only denied any kind of interaction
with 'Netanyahu' but also appealed the world to stop
providing weapons to Israel. Saudi Arabi also called
upon the 'Emergency meeting of OIC' These developments
give a clear impression negotiation between the Saudi Arabia
and Israel has not being stopped but would have also
resulted in severing of relations once again.

Iran did not want Saudi-Arabia, Israel negotiation
to happen as that would happen the process of
normalization between 'Riyadh and Tehran'. The normalization
of relation between the Saudi-Arabia begins in 2013
between the Saudi-Arabia with the help of China, in
which two countries resumed diplomatic relations, relaxed
the visa regime and initiation of trade relation.
Saudi-Arabia Israel deal could have detailed the
normalization of Saudi-Arabia - Iran relation but this
attack has severed the chances of Saudi-Arabia
- Israel deal that benefits the 'Iran' most.

Implications of Global Power Politics:

U.S of America, UK and other native countries has put their weight in the favor of Israel. The media and the government in these countries have been criticizing of the attack of Hamas on Israel. But have been utterly silent on the war crimes committed by "Netanyahu" in Gaza. U.S has deployed two of its air craft carriers in the "Mediterranean Sea" protect Israel against the possible attack from Iran, Hezbollah, Huti and Hamas. UK has sent its jet fighters into the sea to protect fighters into sea. US has provided 5 Billions in aid and Biden govt has demanded 50 Billions dollars approval from US congress for Israel. Any Hamas approach of US and west has created strong resentment among the Arab population and their government in particular and Muslim world in general, President of Egypt, "Jordan King" and President of Palestine refused to meet Joe Biden. Mr. Bin Salman kept US secretary of State waiting more than 2 hours. For the sake of Israel seem to antagonize the Arab capital more and more.

Russia and China on the other hand show increasing soft corners not only towards Palestinians but also Hamas. They have criticized the double standard of US and demanded the implementation of UN Charter i.e the two (2) solution. They have also blocked Israel way of passing resolution from the 'UN Security Council'. China and Russia met the Arab leaders demand peaceful negotiation of the dispute.
