

Day 1

15-12-23

Ineffectiveness of Police and Prosecution:

Lahore

High court set free the three convicts of child abuse after no proper evidence. In 2015, total six prospects were found guilty of sexual harassment. Three of them were released before due to the lack of evidence and rest of them were given life sentences.

It is nothing but another story of betrayal of police and prosecution to poor victims. Victims—who can't fight for themselves and are the future of this country.

There is a dire need of collective action taken by federal and provincial officials to stop this heinous crime.

Day 2

20-12-23

A ray of hope?

The current account surplus of \$9m is recorded in the last month. This has had been possible due to the collective

efforts of Administration and SBP (State Bank of Pakistan). The SBP anticipated, the current account deficit will be in the range of 1pc to 1.5pc of GDP. This is a good news for the country - which has been economically struggling since its creation.

It has been possible due to the compression of imports and suppression of demand which is not a long-term solution. As, it will hinder the overall growth of the country. Though it is a massive breakthrough, a long-term plan ~~is~~ is crucial for sustainable economy. And to make this happen, in-depth fiscal reforms - including wider tax base, structural reforms and administrative management, etc. - need to be implemented.
