Thesis # Social media excels as an entertainer

Anti thesis # Many online content are ethically questionable

Synthesis # Proper protocols are enforced to prevent harmful content

Expanding information technology provides entertainment. It can be in form of movies, sports, news and gaming. Indeed, game development has become more accessible due to advancements of IT. It has the opportunity to create and sell their games. Such earning revenue through distribution of platforms such as stream or app stores. According to Super Data Research report 2020, the gaming industry has gained valued at $159.3 billion in 2020. (Game Vs Movie, Super Data Research report, 2020). To sum up, expanding IT contributes to the realm of entertainment.

sentences has no clear meaning

The expansion of information technology generates ethically questionable content. The drawback of IT expansion poses a risk of generating content that violates ethical standards. IT expansion leads to increase chances of online blackmailing and many digital concerns. Moreover, it can lead to inappropriate content, increasing the risk of blackmail. Such actions need strong cyber security. According to Federal Investigation Agency, cyber crime cells registers over 15,000 cases in 2020. It reflects dark side of IT expansion revealing cybercrimes, fraud and other digital misconduct. (Express Tribune, FIA Cyber Crime cell registers over 15,000 cases, 2020). In short, IT expansion results in an increase in ethically questionable content.

Proper protocols are enforced to prevent harmful content. Such protocols filter online content which enhance the effectiveness of IT expansion. By effectively filtering online content, these protocols contribute to create a safe digital enviroment. This is crucial in preventing the distribution of unethical or harmful content. Therefore, IT expansion is secure with protocols preventing unethical content. According Pakistan Telecommunication Autority in 2021, the authority has blocked 980,000 links containing controversial speech and 865,187 links of pornography were blocked. (Express Tribune, 980,000 links were Blocked by PTA, 2021). In a nutshell, strict protocols are in force to stop harmful content.
