- i) Equal access to public rights without discrimination
- j) ~~Collaborate and cooperate~~ Collaboration and cooperation between centre and provincial governments
- k) Protect fundamental rights from violence

Ensure women empowerment

## 5- Conclusion

Ensure free and fair election process within the time

Among proactive solutions, ensuring free and fair election process within the time will put an iron hand to dangling democracy in Pakistan. Free and fair election process on the time is a keystone of democratic government. This will contribute to the sustainability and stability of Pakistan. As per the constitution of 1973, "It is mandatory to conduct election within 90 days of the Assembly dissolving for democratic future." (Article 224(2) of the constitution of 1973). This ~~example~~ serves a clear demonstration of free and fair election within the time to promote sustainable democracy in Pakistan.
