Thesis statement

③ If you are born poor it is not your mistake, but if you die poor it is your mistake.

Ⓐ Born as ordinary person — providing shelter to millions

Ⓑ Born and raised as an orphan but led humanity

Ⓒ A personality who failed to prevent his mother from death but now having the world's largest ambulance network

Ⓓ Sex does not hinder one's fate.

Ⓔ A gentleman born and bred under monarchy — replaced it with democracy.

Ⓕ A common individual born outside the USA and ruled its 48 states.

→ Mention the names of the personalities otherwise your arguments look too generic

④ Professions are not inherited, but are created by the society.

Ⓐ A small villager is now renowned as Rawalpindi Express.

Ⓑ A local player's passion made him an international athlete.

Ⓒ Societal circumstances inaugurated new profession of nursing.

Ⓓ Inadequate social hurdles cannot in-cage one's passion.

Ⓔ Thirst of knowledge encouraged a security guard to become a lecturer.

Again, these arguments are unclear

⑤ Leaders are not born, but are created.

Ⓐ A famous Caliphate of Islam; born as non-Muslim but ruled the world.

Ⓑ A leader born in British colony, had altered the world's map.

Ⓒ A poet changed the dynamics of sub-continent through his vision.

Ⓓ The leader of a small Muslim country challenged the writ of super power.

Ⓔ Conclusion

All the arguments are in a single pattern
