

What does Pakistan needs The most Charter of economy or Charter of democracy.

Introduction:

It is a long lasting debate which Charter is the need of time. According to some experts Pakistan needs Charter of economy. It is because it enhance the production in agriculture sector and handle the crippling situation of manufacturing products. It might seem, that devaluation of PKR and increasing public debt could be controlled through Charter of economy. It is necessary to maintain the trust of partners. While many people claim that Pakistan needs Charter of democracy. The critics may argue that Charter of democracy helps to boost agriculture produce, it would cause an increase in manufacturing produce and it also stable the PKR value. It is the political force who control debt and trade partner trust in them. However Pakistan needs Charter of economy the most. Strong economy control all economic plus of the society.
