

World peace is a choice for Superpower

① Introduction.

Thesis statement

Understanding of the topic is not correct

② Overview paragraph

③ Thesis points

Work on grammar as well

- War is profitable business
- Source of population reduction
- Way to fulfill national interest
- To occupy resources of developing countries
- Peace will lower oil prices
- To make narrative for transforming world (from) toward clean energy.
- Loss of importance of United Nations
- veto will lose his credibility

You have to explain how war is the choice of super powers, not the benefits or consequences of war

④ Antithesis points.

- Not to become barrier in the trade
- peace will slow climate change process
- World peace will reduce mass displacement of people
- Allies cannot be established in the future.

⑤ Synthesis point

- War is huge source of revenue from war-ridden countries than trade.
- Allies of war (losers) get compensation after dominating loser
- clean energy will be more beneficial than non-renewable in the future due to renewable resources
- Population reduction is inversely proportional to mass displacement

⑥ Conclusion.
