

Darkest hour of human history:

Tel Aviv. has

launched a full-scale incursion on the southern Gaza - which was meant to be safe till now - after the collapse of short-term truce. It has been condemned by the UN officials and WHO. More than 16,000 individuals have been killed including children and women.

Israel seems to depopulate the surrounded Gaza with the help of American bombs. It appears to be another Holocaust carried out by the survivors of Nazi's genocide.

Muslim world needs to take an immediate  
action before it's too late.
