Title:

Democracy in Pakistan

Sub-Title:

Feudal system is the hurdle for democracy in Pakistan.

Explanation:

In rural areas of the Pakistan, still there are feudal systems which manipulate rights of people according to own benefits. They do not give them freedom of vote. They cast their votes according to own desires. Democracy is not successful in Pakistan due to feudal system. Politicians also support the feudal system in some areas for their own political advantages.

Evidence:

Most half of GDP of Pakistan is from agriculture which is in the hand of few families with concentration of economics power, they also considered political power.

Conclusion

For true democracy in Pakistan, they should to vanish the feudal system. Then, people will cast the vote according to own desires.
