

Impacts of climate on National character. ~~and~~ ~~employment~~

Climate affects the labour and
 his regular habits. People living in
 moderate areas ~~pass~~ regular
 industrial work but in northern areas
 the efficiency of working class and
 out of door employment is ~~severely~~
 interrupted by harsh weather. Moreover,
 the national character of people in
 northern areas is more unpredictable
 and irregular as compared to natives
 of southern region. In the countries like
 Sweden and Norway, working class is
 interrupted by dryness of weather whereas
 in Spain and Portugal the severity of
 winter and shortness of days effected

effects the same who???
sentence are incomplete in meaning

the same. But, the common characteristic
in all these four nation is that the
agricultural activities is ~~not~~ feasible. Hence,
their character is unstable and volatile.
